What is Commission Hero ?

It is a make-money-online product that features on the popular online marketplace Clickbank. It is an affiliate program that is run and created by Robby Blanchard .

Commission here uses a simple and systematic system that utilizes Facebook Platform for advertising digital products.

Now how would this help you make money ?

Well you make money by advertising products and programs that have a high affiliate commission. like, if the program offers more than 50 percent commission, then you are in for a good time.

Is this a Scam ?

The answer is a big **NO**.

Yes we get worried that when some one promising that much then there must be some kind of scam behind this because this is too good to be true. And there has been already many internet scams but this one is not.

The program is honest with the things you will have to pay for, including the traffic. Although there are some things that you will have to pay for later in program, you will get an upfront warning before you commit to it. Additionally, Commission Hero looks for ways to lessen the burden on your pocket.

Also later in the program you will get any hidden fee as most of the others do after certain stages ask for some payment again but here you will not get this.

How does it work ?
