

Udimi Solo Ads Review

What is Udimi ?

[Udimi](#) is a solo ads marketplace where buyers and sellers can get in contact with each other to trade solo ads deals. They're willing to sell you advertisements for relatively cheap money.

Udimi is one of biggest sites where you can purchase high quality solo ads to promote your online business opportunity.

You will say there are many other sites which says the same but the thing that makes udimi different from all other solo ads websites is that Udimi guarantees the traffic.

Only genuine and targeted traffic

The thing which i most like about it that it filter out junk traffic and useless clicks so you don't have to pay for them, and as said above they guarantee the traffic and if in some case they fail to deliver all clicks.

You can be totally sure that your ads will only be delivered to the target audience only whom you want to sell or offer your services bots and fake traffic will be automatically filtered out.

User reviews

As you can see on udimi website itself quoted that

"In 2020 alone we've got 2978 ["I Got Sales" testimonials](#) from our happy solo ad buyers, plus 432 713 positive ratings from buyers who distribute free content on their sites."

And this is true. So many customers are already pretty happy using its services.

Also you can check [here](#).

Here you can see the user reviews of using their services and most of them are pretty satisfied and happy .

Protection

The major issue in most websites is the user protection but in Udimi you don't need to worry about it. Udimi connects buyers and sellers directly, and this is the main reason that udimi is at the number 1 priority for its costumers.

No other third parties are involved in any of the steps and udimi guarantee total control over the process and a successful result.

Also the payment is done by udimi itself not by sellers so you never need to worry about the payment or getting scammed and timely payment is done to sellers for their services.

Also the review section which i mentioned above as well, it works on principle of blind rating which guarantees that those reviews are 100% honest.

Udimi Pricing

First of all udimi is 100% free to join So you can register an account, and browse different vendors to see which vendors have which deals . As a free member, you can message other members, view real reviews, post on their forums, and there's even an email list cleaning service.

The only thing you really have to pay for, is when you are buying the ads there.

The price of Udimi solo ads is very reasonable – the typical cost is between **\$0.35-\$0.95 per click**.

The reason why each solo ad cost is different from each other is because each seller sets their own pricing on a per click basis. Usually, the higher cost-per-click rate is the higher quality of the email list you can expect to get.

And Udimi users can upgrade their accounts to the **Prime Membership**, which costs **\$19.95**.

If you get a **Prime Membership** you will have some advantages for sure, you will get an advanced filtering on all your solos on top of base filtering. So the prime membership price is also not very high.

Newbie Friendly

Maybe you are worried that you are new to the industry and don't know where to start and how it works. But don't worry..

If you're new to the game or short on time, our top sellers can write solo ad text for you.

If you don't have a landing page, you can get one constructed by our sellers.

Those who do not even know how to start, you can use their step-by-step coaching services about solo ads.

Conclusion

Udimi is definitely the best site for solo ads according to me without any doubt. So if you are looking for a service like this or want to sell your services, Udimi is the best platform for you. In terms of pricing, security, functions on every aspect Udimi stands in a better position than any other platform in the market currently. So just register [here](#) which is absolutely free and explore the services they offer.
